- **Development Practices:** Responsive Design, Cross-Browser Compatibility, SEO Optimization, Performance Optimization, Agile Methodology
- **Version Control:** Git, GitHub, GitLab • API Integration: REST APIs, Axios
- **Build Tools:** NPM
- **UI Libraries:** Material UI, Bootstrap
- **Testing:** Debugging, Browser DevTools

PROFESSIONAL EXPERIENCE

Frontend Developer

End Point IT Services Pvt Ltd

08/2022 – 03/2026

Mumbai, India

- Developed and maintained scalable web applications using React.js, Next.js, TypeScript, and Redux Toolkit.
- Built reusable and responsive UI components, improving development efficiency by 40%.
- Integrated REST APIs and optimized data fetching using Axios and modern React patterns.

- Improved application performance by 25–30% through SSR, code splitting, lazy loading, and image optimization.
- Collaborated with cross-functional teams in Agile environments to deliver production-ready applications.
- Participated in code reviews and maintained coding standards and best practices.

PROJECTS

Cinepolis India Platform

08/2022 – 01/2023

- Built a dynamic movie platform using Next.js with SSR/SSG
- Improved performance by ~30% using optimized rendering strategies
- Developed reusable UI components to enhance scalability
- Integrated APIs for real-time movie listings and showtimes

Tech: Next.js, JavaScript, HTML5, CSS, Bootstrap

Revivify (E-commerce Platform)

02/2023 – 08/2023

- Developed a responsive e-commerce frontend using Next.js + Tailwind CSS
- Translated UI/UX designs into high-performance web pages
- Improved responsiveness and accessibility across devices
- Integrated product and cart management APIs, enabling seamless checkout workflow and improving user experience.

Tech: Next.js, Tailwind CSS, Typescript, HTML5

Cinepolis Gulf Websites

09/2023 – 12/2023

- Built reusable UI components using React architecture
- Implemented client-side routing and seamless navigation
- Integrated REST APIs for dynamic content rendering
- Managed complex state using Redux/Context API

Tech: React.js, Bootstrap, JavaScript, HTML5

Peoplematters Website

01/2024 – 09/2024

- Developed a content-driven platform using Next.js with SSR/SSG for dynamic content rendering.
- Implemented search and filtering functionality to enhance user experience and content discoverability.
- Integrated REST APIs to fetch and display real-time content efficiently.
- Optimized performance and responsiveness using Tailwind CSS and modern frontend practices.

Tech: Next.js, Tailwind CSS, HTML5, JavaScript

OTT Platforms (Slasherplay)

10/2024 – 12/2025

- Developed production-grade OTT streaming frontends
- Implemented dynamic routing and media content rendering
- Optimized performance for fast content delivery
- Integrated APIs for real-time video data

Tech: Next.js, HTML5, Tailwind CSS, JavaScript

OTT Platforms (Vrott TV)

10/2024 – 12/2025

- Developed production-grade OTT streaming frontends
- Implemented dynamic routing and media content rendering

- Optimized performance for fast content delivery
- Integrated APIs for real-time video data

Tech: Next.js, HTML5, Tailwind CSS, JavaScript

Nuvio Events (Admin Dashboard)

01/2026 – 03/2026

- Built scalable admin dashboard with filters, tables, and CRUD operations
- Developed reusable dashboard components for maintainability
- Integrated APIs for event and ticket management

Tech: Next.js, Tailwind CSS, HTML5, JavaScript

CareEdge Global (Freelance Project)

04/2026 – Present

- Developed and maintained responsive web pages for a global education and workforce solutions platform.
- Built reusable UI components using React.js / Next.js and Tailwind CSS.
- Implemented SEO-friendly pages and optimized website performance for improved user experience.
- Integrated REST APIs for dynamic content management and data rendering.
- Collaborated directly with stakeholders to implement new features and enhance existing functionality.
- Ensured cross-browser compatibility and mobile responsiveness across devices.

Tech: Next.js, TypeScript, Tailwind CSS, REST APIs, HTML5, CSS3
